CREATE **LIGHT CONTROL** **SHADOW**

#### Nederlands

Binnen sommige elektromagnetische storingen kan de touchdimmer zijn dimfunctie verliezen. Na de storingen zal de dimmer zijn functie automatisch zelfstandig herstellen.

#### Français

En cas d'interférences électromagnétiques, le variateur sensible peut perdre de son efficacité. Cette fonction se rétablit automatiquement dès la disparition de ces interférences.

#### English

The touch dimmer may lose its dimming function within some frequencies of electromagnetic disturbances. The touch dimmer is able to restore its function automatically after the electromagnetic disturbances disappear.

#### Deutsch

Durch das auftreten von elektromagnetischen Störungen in bestimmten Frequenzen könnte der Touchdimmer gegebenenfalls seine Funktion verlieren.
